\$480,000-\$490,000

Located in the heart of vibrant Richmond, the renowned JAQUES building is set to add a sophisticated new dimension to quality apartment living. The architectural concepts from Fender Katsalidis and interiors fitted with customary flair by Hecker Guthrie have created a newly refined surround while maintaining the urban and contemporary feel and culture of Richmond - and this generous light filled top floor apartment with spectacular views is the perfect example. Offering fresh levels of luxury in the one bedroom layout, its inviting spaces include a living/dining area framed with a fully equipped kitchen fitted with Miele appliances and stone benchtops, an extra-large balcony, while the generous bedroom is complemented by built in wardrobes and a separate bathroom. Discreet laundry, heating/cooling, video security, an allocated secure car spot and bike racks enhance a landmark less than 3 kilometres from the city centre, walking distance from every attraction of Bridge Road, the MCG sporting precinct, parks and public transport and a fresh farmers market every Saturday at your doorstep.
