\$540,000

A faultless combination of contemporary aesthetics and functionality combine to create a dynamic lifestyle experience that favours the professional couple seeking easy-living elegance, the established family looking to position themselves in the acclaimed Mount Waverley Secondary College school zone, or an investor keen to take advantage of these two aspects and the timeless blue-chip appeal afforded by proximity to Burwood One SC and the 75-tram into the city. Dark tones and crisp, square-set plaster reflect the modern mood as open-concept living & dining stretches out to a sunset balcony boasting beautiful perspectives of the streetscape below. Comprising two bedrooms with BIR, a shared bathroom, and European laundry, the low-maintenance layout includes a kitchen with island & generous storage, hardwood flooring, lounge room A/C, rainfall shower, and secure parking.
