\$849000

The quintessential home for the entertainer offering a relaxed lifestyle. This beautifully presented light filled home with dramatic architectural influences and high ceilings exudes appeal internally and externally. The well-presented manicured gardens and privacy screening have all been done to complement the home. The north facing patio is a wonderful place to relax in both summer and winter. The garage and a large carport to house a caravan and a separate area to house the fishing "tinny" are located away from the living areas. The rear corridor is fenced and leads to drying yard and vegetable patch. The home is also equipped with a bore and sole use taps have been installed. Internally the gourmet kitchen caters to the foodie in the family with all the mod cons and a great Island bench that is open to the Atrium styled dining area. Adjacent is a casual living area leading onto the patio. A wonderful bonus to keep the family together in a central light filled hub for conversation and fun family times. The master suite is also adjacent to this area with overly generous ensuite and WIR. The remaining bedrooms are in a wing opposite the living area and consist of 4 well-sized bedrooms 3 with built ins. There is a wonderfully presented wet area including bathroom with a separate toilet and large built-in laundry area and nearby walk in linen storage room. The home is also equipped with a new 13 KVA solar system to meet any power requirements of the home including central air conditioning. This impressive and desirable home is a must for those requiring a home with style and comfort.
