\$2,050,000

This is an incredibly stylish and very liveable home in a quiet and private enclave in North Fremantle. Walkable and connected, this is cul-de-sac position where strong community values are right at the forefront. It's right on the cliffs of Rocky Bay with the walking and bike path on your door step. The walk to the beach is also surprisingly close where you can just stroll over the overpass and have your feet in the water in 7 minutes! The home itself commands a prominent position on the street and upon entering, you'll immediately feel transported to your own private and calming sanctuary. The lower level flows from the indoor to out with easy care gardens and wonderful views in every direction. The main living area flows to the outdoor seating and the front courtyard beyond. There's a wonderful evening room complete with the gas fireplace which in turn opens to the olive tree lined back yard. Upstairs is an enormous master suite with its own sitting room opens to the balcony where the elevated position of the property opens up the views to the river. The home has incredible storage throughout with each bedroom having their own loft style spaces too. This is an incredibly well thought out home which makes the most of its sensational position. Don't delay, this home will not last and is one you must have on your viewing list. Contact Nick Holt for full details.
