Wow, what a transformation this property has had! The owners have turned it into something truly special. From the moment you pull into the driveway, you'll be struck by the ample open car parking, low-maintenance gardens, and a house façade that will make you stop and say "wow." Take a moment to appreciate this impressive area of the property, because it only gets better from here. As you step inside, the master bedroom greets you on the left. On the right, you'll find a walk-through study area and a multipurpose room, ideal for a home gym, media room, or home office. Continuing through the house, you'll encounter one of the lounge rooms and the 5th bedroom. So far, you should be fairly impressed with what you've seen. The kitchen will stop you in your tracks. The owners spared no expense here, as they loved to cook and entertain. It features an oversized island benchtop with plenty of cupboard space, two fridge spaces, two ovens, and a servery. This luxurious kitchen will appease everyone. Further in, there's another large living area with two bifold doors leading to the outside. The two renovated bathrooms and the four generously sized bedrooms, all with built-ins, add to the home's appeal. Outside, you'll find a generous-sized entertaining area overlooking the pool, a large 6x12 shed, and a carport with the perfect height for caravans or boats. This low-maintenance, two-acre property is designed for both convenience and enjoyment.
