\$535,000

Situated in the ever expanding Stratford, is this newly built and well-designed four bedroom family home. The master bedroom, located at the rear of the property, boasts a spacious walk in robe, split-system heating and cooling, an ensuite with 'his and her' vanities as well as a separate toilet. The further three bedrooms are all excellent size, and all have built in robes. The main kitchen/living area is positioned to capture the morning light, and along with the large breakfast bench and butler's pantry it provides a huge amount of storage and great functionality. Centrally located is the main bathroom which contains both a bath and shower. Positioned adjacently to the main bathroom is both a separate toilet and laundry room which allows external access to the side of the house. The residence is completed with split-system heating and cooling, a formal lounge room and double car garage with direct internal access. The exterior of the property is a 'blank canvas' with a water tank and double gate access to the open yard it gives the opportunity to build shedding and landscaping to the level of which it is desired. The property is currently leased until 2 November 2023 at \$500.00 per week.
