Located close to shopping, dining, hospital and educational institutes this home is a prime investment or alternately it's perfect for the large family. Inside you're greeted with an L-shaped living/ dining space with the kitchen as the central hub, the front of the home consists of 3 bedrooms, a bathroom, laundry and a toilet. The rear of the home boasts a large games or second living space with the master bedroom and ensuite on the back of the home, enjoying a very quiet position. The home as a large drive through garage and under cover parking area for the home mechanic. Respectful tenants in place until May 2024. The home may seem like it sits in a busy position but the now under construction BOAR road will send transiting traffic far from current ring road.
