This is a once in a lifetime opportunity to secure a stunning property and make your ultimate dream a reality. This much-loved, 42-hectare property is part of the original Hayter Family Farm at Hayters Hill above Byron Bay; and it is being released for the first time in over 100 years. This land presents a rare chance to build your perfect home (STCA) within the beautiful Byron hinterland. It is an incredible sanctuary of natural beauty, with expansive rolling farmland, established rainforest & the pristine headwaters of Byron Creek. It is the perfect location to graze cattle &/or enjoy your horses. You will have the privilege of watching echidnas and other wildlife meander their way through the rainforest and along the creek. This special property feels a world away from the hustle & bustle - and offers you the idyllic lifestyle in a very private setting. The views are spectacular in every direction. There is so much space. The biggest challenge is designing the house of your dreams to do justice to the setting. It's hard to believe this sublime estate - with boundless opportunity - is perfectly positioned less than 10 minutes' drive from the world-class beaches, eateries & vibrant culture of Byron Bay.
