\$515,000

Great location and even better setup this could be the one. Timber floors feature throughout, and the main bedrooms include built-in robes. The kitchen is bright and fresh, providing gas cook top and electric oven with new cabinetry. Other features include separate living, gas heating and renovated bathroom. A corner block with great access to build a shed. A property with this much appeal doesn't come along very often, so be quick as this one won't last long.
