\$250,000

Located in the historic township of Wallangarra on the QLD/NSW border is this very original worker's cottage on a large block of land. Practical 3 bedroom home with a roomy living + wood fire heating. Views over Wallangarra from the verandah. Good sized yard and plenty of storage space under the house as well as room for a car. This house does require some work to bring it back to its original glory. No internal photos as it's currently tenanted (until 29/07/2024). Great opportunity to break into the real estate market at a low 'starter' price. To organise a private inspection contact Logan Steele on 07 4681 3311.
