This vacant building is an amazing opportunity in today's market-place. It is virtually level and has all services available. Being an original sub-division it has no restrictive covenants. It has two bitumen street frontages (corner block) facing north and east, both with concrete road drains. It is opposite Melling Park - a passive childrens' park and is just one block away from West Glen Infants school and a Pre-school as well. The block size is 1075m² (21.375m x 50.29m). First to view will buy.
