Set on a picturesque north facing slope, this blank canvas 9.47ha block gives a new owner a great opportunity to live a secluded lifestyle, with the benefits of a regional city just a short drive away. Located 12km south of Northampton and 38km from the Geraldton CBD, the property has frontage to King Street with power available across the road. There's great potential for building a spacious family home with wonderful views and appreciating breadth of space on this fully cleared block. Let the pictures speak for themselves.
