In a satellite town of the greater Launceston area, our newest listing in the Cressy village possesses all the qualities of a spacious family home or investment property. With three bedrooms, master with built in storage - a renovated bathroom and a kitchen that opens out to the sunny rear deck and large backyard, this home is perfect for entertaining and quiet time alike. The living spaces of the home flow from the entrance hallway and through clever alterations to the floor plan, connect with open concept qualities to the dining and kitchen spaces of the home. The large detached double car garage and additional shed sits in the rear corner of the 1014m² site and is perfect for conversion to a home business or simply for a place to tinker or retreat to.
