\$620 pw

This well presented, four bedroom home is in fantastic location close to schools and within walking distance to Riverside Plaza, daycare and public transport. A spacious master suite has its own walk in wardrobe, and large bathroom with 'his and hers' vanity. Further in you are then presented with a formal lounge where natural light pours through the window, following on to a modern open plan kitchen, dining and living room which have large sliding doors to outdoor living areas to create a walk through atmosphere, bringing the outdoors in. The outdoor areas are undercover with decking, offer extra living space as well as entertaining room. One area can be closed in with the use of a patio blind, and used all year round as it features a large gas flame heater. The main outdoor area has a relaxing atmosphere which echoes out into the two garden areas. The remaining three bedrooms each have built in robes and will all accommodate large double beds. Ducted heating and cooling throughout the home will assure you comfortable all year round. The double garage has remote access and internal entry into the home, and there is a large utility/storage room which will save you from taking up garage space with bikes, camping equipment etc.
