This lowset double brick construction home is sturdy and would be hard to build nowadays due to the expense of constructing. Such a home is a rare find. The home is spacious inside with 4 bedrooms, 3 of which are airconditioned with an ensuite in the main bedroom. The home also has a TV area, neat kitchen, large dining area and 2 indoor and 2 outdoor entertaining areas. The home has a single carport at the side. The 2,547 square metre (over 1/2 acre) block is a short drive from the centre of the Halifax township. It enjoys access from Macrossan Street at the front & Scott Street at the rear. The property is large enough for a shed to be constructed on it in a position where an owner could drive through it from one street entrance to the other. This would be ideal for a person who did not want to reverse a boat into or out of a shed. The property has been minimally affected by flooding in the past, but has not been affected since the installation of the levee bank that now largely protects the township. You could take a Video Tour of the property by clicking on the Video Link, For further details on the property, or our district, or to arrange an inspection at anytime contact the action team at Felix Reitano Real Estate!
