Tucked away in a very quiet corner of Arcadia, yet just one block from the beach, and across the road from National Park, is this little tropical oasis. Landscaped irrigated gardens surround the home, providing tranquil spots to sit and read a book or enjoy your morning cuppa. You'll enjoy the gardens from inside the house too as there are lots of sliding doors and windows, which also provide good light and cross-ventilation. Entering the home through the front door, you will be amazed by the huge open-plan living area which opens up front and back to covered patios. The master bedroom is at one end of the house, and also opens up to the patios front and back through sliding doors. With an ensuite bathroom, large built-in wardrobes and a study nook, it's a lovely parents' retreat. On the other side of the living area, a hallway brings you to three further good-sized bedrooms, all with built-in robes and sliding doors to the garden, as well as the family bathroom and separate adjoining toilet, with storage in the hallway and bathroom. Fully air-conditioned and with ceiling fans throughout, the house will be cool whatever the weather. Outside, there's plenty of room for a carport or garage and also for a pool or spa too, but with Alma Bay just down the road and Geoffrey Bay around the corner, you probably won't need one. Just 12 mins walk to the ferry or a two minute drive, this is a very convenient location in the highly prized village of Arcadia where properties rarely last long on the market.
