Properties like this do not come along often. As you step inside of the property you are greeted with a large light filled open plan kitchen/living/dining area featuring polished concrete flooring, ample cupboard space with a walk in pantry, electric cooking and dishwasher. To the back of the house you will find three large carpeted bedrooms, all include ceiling fans. Two of the bedrooms have walk in robes while the main includes a walk in robe as well as ensuite. The main bathroom and separate laundry is also included this end of the property. With the added bonus of ceiling fans, split system cooling and wood fire heating, you will be sure to be comfortable all year round. Externally you will find a large undercover entertaining area, lots of yard space and a large 3 roller door shed.
