**\$125,000**

This half-acre block offers you a generous amount of land to bring your dream home to life. With its ample space, you'll have the freedom to design and position your house just the way you want it. Not to mention, there's plenty of room for the kids to run around and have a blast, or even for some furry friends to join the fun. Now, let's talk about the location. This block is nestled in a peaceful country town, providing you with a serene and tranquil environment. However, despite its rural charm, it's still conveniently close to essential amenities. You'll only need to take a short 7-minute drive to reach Rosewood, where you'll find an electric rail that connects you to Ipswich and Brisbane. This means you can easily access the city for work or leisure, while still enjoying the laid-back lifestyle of the countryside. And if you ever need to venture further, Ipswich is just a 30-minute drive away, and Laidley is a quick 16-minute drive. Don't miss out on the chance to secure this prime block for your investment. It's a rare find that offers both space and convenience.
