\$735,000

Created, constructed and completed with signature style by renowned local developer Keyway, this dynamic dual level residence applies exceptional contemporary ideas in a location that's loaded with lifestyle advantages. Crisp exterior lines introduce superb spaces, commencing with 2 ground level bedrooms, each with built-in robes and heating/cooling, 1 featuring sliding glass to a courtyard retreat. The fully tiled, impressively appointed central bathroom adds its own allure to the accommodation. Above, a sky-lit living/dining domain defined by timber floors, an elegant balcony and its own heating/cooling incorporates a Bosch equipped kitchen of evident quality. Proximity to West Footscray's great cafes, Central West shopping and Tottenham train station enhances a property that's primed to provide outstanding appeal as a residence and consistent returns as an investment.
