This stunning ground-level residence's generous interior dimensions and tranquil northwest-facing courtyard provide the perfect setting for inner bayside living just metres to the market, Clarendon Street shops, the light rail and trams. Soaring original ceilings and the schoolhouse windows create a wonderful sense of space and light through the expansive living and dining room featuring timber floors, a modern kitchen appointed with stainless steel benches and a Smeg oven and a large bluestone wine cellar. The living area extends out to the 2-level private northwest entertainers' deck and courtyard along with impressive vertical garden. Upstairs, a series of distinctive louvre windows provide both light flow and privacy to the two spacious bedrooms with built-in robes and a stylish shared ensuite. On the ground level there is also a second bathroom and generous laundry. Impeccably appointed throughout, it includes secure entry, intercom, RC/air-conditioning, secure car space, cellar and rear access.
