\$1,100,000 - \$1,200,000

In an E.C. Beedham designed building that's long been recognised for its sense of style – it appeared in Australian Home Beautiful magazine in 1928 – and fronting Hampden Road with its own private entrance, this superb two bedroom apartment's Art Deco dimensions now reveal the impact of a stunning contemporary renovation. High ceilings, polished floors, state of the art designer built in robes and drawers with effective double glazing enhance the elegance of spaces that are served by a kitchen where integrated Liebherr fridge and freezer, integrated NEFF appliances, Miele hotplates, marble benches and Blum cabinetry convey exceptional quality. A bathroom equipped with under-floor heating further enhances the allure of a design that's complemented by Foxtel connectivity, split system comfort, hydronic heating, a fresh feel and flawless presentation. Allocated car parking completes a sensational scenario, access from Hampden Road, close to trains, trams and Malvern Central. Note: Internal size 119 sq.m. approx
