## Offers in the mid \$500,000's

Ideally positioned at the rear of a tidy and secure block of only 8 apartments is this delightfully presented home. Walk in and be amazed because there is literally nothing to do here! Feel the cares of the day wash away as your eyes are drawn to the serene aspect from your balcony. Protected by a treed canopy you can step out to have your early morning cuppa or chill in the evening with a glass of something cold - whether alone or with friends this is the perfect place to kick back and enjoy life! Working from home your new thing? Convert the second bedroom into your office - with light streaming in you'll never want to return to the rat race again! Better still, keep the bedroom for those visiting family and friends - they're going to love the convenience of having their own bathroom and you're going to be even happier in your totally private ensuite! Not feeling like playing host? Nundah living means you can wander out to have a meal with friends when the mood takes you, pick up your provisions at the local supermarket or head to the always popular Farmer's Markets on a Sunday and make friends with the locals. With the petrol prices being what they are it's smart to choose a lifestyle where you live within walking distance to everything - leave the car in the garage until you almost forget you have one! Turn the garage into a gym and catch the train just down the road and your life will be complete! Don't hesitate - properties are being snapped up so come along to the first open home and be prepared to fall in love!
