\$345,000

Boasting a double block and immeasurable potential, a clever balance between modern functionality and inspiring design welcomes the best of both worlds across this collective 2,007sqm (approx.) allotment. Occupying its own title and providing modern comfort with split-system heating and cooling throughout, a weatherboard home originally delivered by SwanBuild welcomes sensational country-style living with timeless style. Subtle updates artfully incorporate modern functionality across an open layout, where a suite of appointments and swathes of natural light filters right throughout. Stamped with an entertaining-focused footprint, a front alfresco opens across a central lounge where beautiful polished timber floors and vaulted ceilings extend to include a practical kitchen design. Enriched with a 900mm gas cooktop, Westinghouse wall oven and a stainless steel dishwasher, the kitchen complements a relaxed living experience, bookended by two generously-sized bedrooms, and central family bathroom. Wrapped up within ample space to privately enjoy, develop for future return or simply land bank, this rare opportunity across two titles offers families or investors an exciting prospect in the heart of Koraleigh.
