In a peaceful family pocket close to prestigious private schools, this renovated 1920's home is not only instantly appealing, its deep northern rear garden and prized family position support options for the future as family needs evolve. Surrounded by established gardens behind a pretty picket fence, an enchanting corner verandah introduces original dimensions that retain their high ceilings and delightful character in a series of impeccably presented rooms that include three spacious bedrooms with excellent built in robes and a light filled living room warmed by a period style gas fireplace. At the rear, stylishly extended spaces feature a Gaggenau appointed kitchen and family dining domain opening to a full width undercover deck whose drop down café blinds ensure easy all season entertaining amidst the sunny rear garden. Other highlights include an immaculate family bathroom, laundry with second WC, ducted heating, split cooling and off street parking. Some families will love the existing accommodation as is; or with no heritage overlay, others will appreciate the potential to further renovate/extend if needed and some may even find the flexibility to build a brand new home (STCA) equally rewarding. For now, enjoy an enviable Kew lifestyle in this prized family position just a short walk from popular Kew East Primary, Victoria Park, High Street trams, buses and Harp Road Village with just minutes to Kew's prestigious private schools, Kew Junction shopping and dining and the Eastern Freeway.
