What an amazing home on a large block of land, with picturesque views of the ocean and only a short walk to the beach, tennis courts and caravan park. The home is modern, warm and has a cozy homely feel as you first step through the main entrance. The open plan living and kitchen area soaks up the all day sun that flows throughout every room in the home as the day proceeds. The second living/bedroom offers a separate sliding door entry to the deck, overlooking the front fully fenced yard and ocean views. This home is perfect for young and old and offers itself to low maintenance living. You will instantly feel at home here and have time to enjoy the most important things in life - making memories and relaxing with the family. Situated on the corner of Westwood street and Charles street with a block size of 1,002m² this home has potential for the addition of a boat shed with a second driveway or subdivision (subject to council approval). Private inspections available call Sam Olah 0413 878 714 .
