Most people would not have heard of Edinburgh Street in South West Rocks, let alone know where it is. Sitting right in the heart of South West Rocks is a private little lane way that runs off Landsborough Street and is perfectly positioned to the beaches, walkways, coffee shops and eateries. Hidden in this Street is a home that is a real gem that consists of a very low maintenance, freehold title and is a freestanding residence. Within walking distance to everywhere and although not huge, the home still offers 3 bedrooms, 2 bathrooms, open living and lounge room, courtyard, single garage and extra off street parking. This is a real hidden gem that will make a great investment or even a better place to live.
