\$395,000

In a quiet area of town, you can enjoy quality time with the ones closest to you in this homely Queenslander. After entering the spacious foyer, you are presented with an open-plan living style which includes a cozy living room with brand new air-conditioning unit and dining area where you can open up the beautiful stained glass windows whilst enjoying a meal or watching your favorite show. As you enter the first bedroom you are hit with the warm sun coming through the large bay window inviting you to relax and read a book or simply admire the outside scenery. This bedroom also has a ceiling fan and a walk-in robe big enough to fit two people's clothing along with other belongings. Bedroom number two also is a roomy space with another ceiling fan and even a door to the back sleep out, just another area where you can spend your precious time. The third bedroom includes another brand new air-conditioning and a ceiling fan for ample comfort during the hotter days. As well as already having a spacious bedroom, there is also a robe for clothing. Before reaching the third bedroom and bathroom, there is a huge kitchen with plenty of bench space which includes a 4-burner gas stove and plenty of room for storing appliances and kitchenware. The kitchen includes a cut-out wall which makes the dining room visible. This makes it possible to chat with your family or friends while cooking up your tasty meal. The bathroom is also quite large containing a walk-in shower, toilet, and single vanity making getting ready in the morning easy with everything in reach. After spending time inside, the back verandah is a serene place to entertain. Surrounded by the greenery outside, this space is definitely large enough to host dinners or just enjoy your morning coffee. Looking at the verandah you will be able to see the backyard, a perfect space for your children to play or your pets to run around. Around both sides of the house, there is side access with one side leading to a concrete slab, a nice place to park your vehicle, and the other side leading to the main yard. You'll also find 2 large rain water tanks on your property, helping you keep the yard green without the worry of your water bill! Underneath the house you'll see steel footings, proving the true strength of the foundations of this beautiful home. Underneath of the home is fully concreted extending to the rear of the house, providing a huge storage space for the at-home handyman, or just extra space for important belongings plus the downstairs laundry room with heaps of cupboard space! Situated on a no through road, this home has everything you need close by, shops, public transport, schools, Mackay's sporting district and so much more. * Currently tenanted to 3 Jul 2024 @ \$380 per week. Private, fully fenced and for a family, there's nothing this home can't offer you. Contact our team to secure this gorgeous property today!
