Here is a fantastic opportunity to secure a much larger home than what is normally on offer. This family home has seen the kids grow up and move out, now after 41 years it's time for this grand home to be handed over to the next generation. With a fantastic extension on the back of the home this has allowed the fourth bedroom now to become a massive master. The full width of the house and 4 metres longer its more of a retreat. Included in the extension is also the back patio and stairs leading you down to the backyard and undercover area. A massive amount of features exist in the home. With access to the upstairs via three sets of stairs. The kitchen has undergone a recent renovation. Modernized bathroom with separate toilet. Painted throughout with carpet in the bedrooms. Underneath is a real treat. Block walls as an exterior have provided much better insulation for the area downstairs. A real open plan blank canvas. The laundry is tucked off to one side however with some vision and careful planning the addition of rooms downstairs could be executed quite well. With plenty of space still in the backyard there are all the possibilities of extra sheds or a pool to be installed. So close to schools, shops and local transport and the Dolphins home precinct just a short walk down the road. There is everything at your convenience. A great opportunity to secure your next investment, find your first home or move to a desirable location. Than this is a must see.
