Type: House

John Elliman

\$495,000

This home is smartly presented and is ready for you to move in now. It offers all the features a family desires with a park across the road that will cater for all the games the kids will want to play. Most importantly, there are 3 bedrooms, a study nook, and 2 separate living areas. The very spacious master bedroom is privately located and benefits from a large walk-in dressing room and an ensuite with room to move. A formal lounge boasts northerly views to the park whilst the family room is adjacent to the modern kitchen that has the bonus of a walk-in pantry. Other highlights include gas ducted central heating, split system air conditioning, ceiling fans and a double garage with direct home access. Outside is established and very easy to maintain with a private alfresco dining area for relaxation. Low maintenance living at its best!
