Bedrooms: 5

Bathrooms: 1

Parkings: 1

Area: 795 m²

Type: House

\$360,000

It is my pleasure to welcome to the market 5 Main Street St Marys for the first time - after being in the family for over two generations. Just a stone's throw from the centre of town (300m), you'll find this classic five-bedroom home. The original miner's house contains three large bedrooms, family lounge room and kitchen/dining area. The property then boasts a new dimension of functionality for a large family or someone looking for attached accommodation for an independent family member. The additional two-bedroom unit is connected to the main house with an internal door, and has its own lounge area and toilet. Heated by the centrally located wood heater and reverse cycle air-conditioners this home is kept comfortable year-round. In addition to this, the home has been upgraded with double-glazed windows and doors. The home is set on a generously sized block, that is fully fenced. Boasting a newly updated outdoor entertaining area, this property has all the boxes ticked. A carport and wood shed/workshops complete the package. St Marys has become the go-to location for people wanting the convenience of east coast beaches being just eighteen minutes away and Launceston just one hour twenty minutes away. With options to follow the East Coast Wine Trail, go mountain biking on world-class trails, visit the stunning Bay of Fires, bushwalk to glorious locations, go fresh or salt water fishing or surf the famous East Coast beaches, this home provides your perfect stepping-off point for all your adventures. Whether you're looking a wonderful family home or a sought-after rental property, call me now for your private viewing or further information.
