Offers over \$200,000

This renovator is ready for a new refit. A wrap around veranda on 3sides would lift the street appeal and renovations inside of thishardwood home on concrete stumps would be an opportunity for ahandyman to capitalise on the growing local market. The corner block is1012m2 and has room for a large shed and extensions. The polishedfloors would sand back and polish up beautifully or carpet and vinyl would suit the home too.There is a wood heater, ceiling fans and a box air conditioner.Clifton has a Bowls, Golf & Tennis clubs, Swimming, Crafts and many other social groups. The Food Works supermarket has an extensive range of groceries, the hardware has just about everything you could need and there is a service station with both petrol and diesel fuel.With its own hospital, ambulance and police station, there is really no need to every leave Clifton if you don't wish.This one won't last long so give me a call ASAP.
