\$1,193,750

Perfectly positioned for access to Mt Eliza village, prestige schools and the Peninsula lifestyle, 5 Mountain Avenue Frankston South is your blank canvas on which to map the future. With Peninsula Link easily accessible, the commute to Melbourne has never been simpler. 2,700 sqm (approx.) on title gives you ample space to design an oasis far from the maddening crowd. Structurally sound, the original home of 4 bedrooms offers multiple living spaces and an impressive open fire. The template is set for a remake to bring this home into today's standard. Mature trees surround the property allowing for the new owners to develop the home with the benefit of mature landscaping. A semi-circular drive allows ease of access to and from Mountain Avenue and the existing home connects to a dual car port with lockable workshop. This is a truly rare opportunity to return life and love to a once cherished family haven right on the doorstep of everything that makes the gateway to the Peninsula desirable.
