\$1,050,000 to \$1,155,000

Cherished by a single family since conception, this all-original Mid-century treasure welcomes yesterday's grace across an established 866m² (approx.) allotment with established gardens. Celebrating the era's signature design with stone hearth, floor-to-ceiling glazing and a kitchen taken directly from the archives, the home presents an open concept with opportunity for total rejuvenation. Perfect for those yearning for something unique, those seeking multi-dwelling development potential (STCA) or skilled trades ready to try their hand at renovations, the property offers endless possibilities and opportunities, with the addition of a FHSZ address. Anchored by solid timber floors and crowned by soaring ceiling heights, the living and dining proportions encircle the central fireplace while an adjoining all-original kitchen offers functional appliances and ample cabinetry. Divided by a central entryway, the three light-filled and generous bedrooms offer restful retreat for couples of families while a central bathroom serves both families and guests. Enhanced with internal panelling, signature 60's roofline and a blond brick exterior, and a double garage with two rear storage rooms, let this property capture your heart and fulfil a future of endless possibilities and cherished memories. Positioned within walking distance from Norman Avenue shops, Sweetwater Creek Nature Reserve, Olivers Hill Boat Ramp and Frankston Foreshore.
