Offers Over \$635,000

Positioned only 50 minutes from Launceston, this Greens Beach family home offers the prospective buyer a range of alternatives. It's a super comfortable home and a perfect family residence. Alternatively it can be the perfect "weekend getaway". It has a modern open plan design on the top level with its three bedrooms and a spacious deck, offering water views while the bottom level can be a monster second living/rumpus room. Our current owners have the lower level set up as a multi use room with beds allowing for extended family & friends to stay and enjoy the beachside lifestyle that is Greens Beach. Apart from Green's "family friendly" beach, you have a wonderful golf course, tennis courts and the majestic Narawntapu National Park where you will find hidden beaches, walking tracks and a plethora of stunning flora and fauna. Greens Beach sits at the mouth of the Tamar River with the drive from Launceston winding its way through the spectacular Tamar Wine region and highlighted by wonderful river views. Whether you're looking for a permanent layback lifestyle, or the getaway from the hustle and bustle, this is a must to inspect.
