Adjacent to Scarborough, this Newport location in Oyster Point Esplanade is ideal for buyers who value a generous 610m² block size within close proximity to the beautiful Moreton Bay and the Scarborough waterfront. Meander along the bayside with its sensational water and Glasshouse mountain views and maybe stop off at your favourite coffee shop, watering hole (Moreton Bay Boat Club or Scarborough Brewery), restaurants such as Tempest at the Marina or take a stroll around the corner to Scarborough Village with its sandy beach and myriad of dining options. Lifestyle is what makes this LOCATION special but to live the right lifestyle you also need to have the right home and this one does not miss the mark. Whether it be the upstairs living areas that are filled with natural light, the full length back deck that overlooks the inground pool and manicured low maintenance back yard, gorgeous polished timber floors, generous sized bedrooms (master with ensuite), this home has a relaxed feel that will see you melt into the casual bayside lifestyle. Downstairs there are options that we can't entirely embellish here as the ceiling height is just shy of 2.4m. You'll need to use your imagination here and look at the pictures. There is a proper kitchenette, large multi-purpose room that opens onto an outdoor living zone PLUS another BIG room, we've called it a multi-purpose room. In addition there is a 3 car drive-through garage with full access to the backyard. You get the picture, this home offers so much more than its 3 bedroom description allows. But wait, there is more: air-conditioning, gorgeous ceiling fans, solar panels, 2 large water tanks (5,000 & 7,000L), inground pool all close to schools, shops, hospital and local transport. If you think a sea-change is on the cards my advice is DO NOT WAIT. Well located, well appointed, affordable homes with generous land in this fabulous Newport/Scarborough location NEVER LAST. This much-loved family home should be right at the top of your list. Call Stephan or Jo to arrange your viewing!
