Buyers From High \$1M's

Welcome to 5 Pakee Street, where coastal living meets tranquility in the heart of Alexandra Headland! Nestled in possibly the most tightly held cul-de-sac in the area, this charming HOME is more than just a property; it's a community. With friendly neighbours and an incredibly peaceful atmosphere, you'll feel right at home from the moment you arrive. Just a leisurely 8-minute stroll through the Alex Forest leads you to the sun-kissed shores of the beach, while local favourite coffee shops are only 5-minutes away. Step inside, and you'll be greeted by a HOME that oozes warmth and character, with tall raked timber ceilings and a modern, functional kitchen + kitchenette. Whether you're entertaining guests or enjoying a quiet evening in, the multiple entertaining decks and two great open plan entertaining areas offer the perfect backdrop for any occasion. With its family-friendly layout and great 4th bedroom/home office or media room, this home offers versatility to suit your lifestyle needs. And with an extremely well-maintained interior and low-maintenance, lovely mature landscaping outside, you'll spend less time on upkeep and more time enjoying the serene surroundings. The main bedroom is cleverly separated from the remaining rooms - situated upstairs, with a built-in robe & an ensuite. The remaining bedrooms are located downstairs, both with built-in robes & easy access to the main bathroom. The 4th bedroom/MPR has direct access to an outdoor sitting zone. Set back from the street and elevated to capture refreshing sea breezes and natural light, this home offers privacy and tranquility throughout. Plus, with off-street undercover parking and the potential for a pool, it's designed with both convenience and luxury in mind. Experience the ease of coastal living with an easy walk to the beach, shops, and surf club, and just a short ride away from Cotton Tree and Maroochydore CBD. Don't miss your chance to make 5 Pakee Street your own. Contact Jay Sherwell or Kate Jewry for any additional information.
