**\$1,700,000 - \$1,800,000**

Meticulously transformed into a modern alfresco abode without sacrificing any of its original period character, this strikingly renovated, solid brick and double-fronted, three bedroom Victorian classic is an extraordinary lifestyle proposition merely metres from Kew Junction. Open and airy cotemporary living is seamlessly united with a vast and sun-drenched deck to present an uplifting home with a bold entertainers' spirit and a private sense of sanctuary to defy its proximity to all the Junction's buzz. Carefully curated with a servery and double door connection to a huge deck and partially undercover entertaining area, the home's open-plan living areas is underpinned by a gleaming kitchen with stainless steel appliances – including a wok burner an integrated double fridge / freezer and volumes of soft close cabinetry. Meanwhile, each of the bedrooms has been completed with built-in robe storage – the main bedroom with a fully-tiled ensuite that includes a double basin vanity that is set in stone – plus there is central heating, secure driveway parking for two vehicles and a bathroom / laundry with a floating wall-mounted vanity. Just the most leisurely walk from the Junction's highly-regarded café culture, dining options, bars, shopping and city-bound transportation that includes multiple tram routes, buses and the Eastern freeway.
