This old home is set on a quarter acre block, just like they all used to be. Featuring high ceilings and timber floors there is no shortage of charm. The kitchen and bathroom have had updates during the recent years and the bedrooms are all large in size. The rear deck is covered and a great place to relax overlooking a decent sized rear garden. In addition to the home is a multi purpose 3 bay garage, which has been internally lined and sits at the end of the driveway with double carport in front. There is town sewer supply connected and tank water supply. A town water supply is available for connection. There are also pest and building reports available for your perusal. Situated on a generous 1000m² allotment close to shops and beaches the opportunities on offer here are plenty.
