A bold and beautiful vision of luxurious lifestyle living from ELC Architecture and Interior, this spectacular family residence creates a new category of elite Eltham living with its high-end finishes, outstanding craftsmanship, interaction with its surrounding landscape and functional design. Beautifully balanced with contrasting textures and finishes amid established low-maintenance gardens, every detail of this residence has been meticulously crafted to create a serene and welcoming haven for its inhabitants. Glass walls blur the lines between the expansive fireside open-plan living and lifestyle backyard, with garden and pool views providing a soothing backdrop and bi-fold doors integrating indoor-outdoor living. A feature-packed statement kitchen with polished concrete benchtops is a worthy centrepiece. With summer just around the corner, why stay indoors when you can host unforgettable nights on the sensational entertainer's deck that embraces the fully-tiled swimming pool and manicured lawn. Three large bedrooms (master with glamorous ensuite) offer hotel-style accommodation enhanced with access to a luxurious family bathroom; a versatile second living area downstairs can be converted into a functional fourth bedroom. A concreted basketball court, double garage, feature staircase and ducted climate control are just a few of the long list of impressive features associated with this must-see home.
