This unique, modern home was built to make the most of the sunny aspect, fabulous bush, and distant water views. The home itself was designed to replicate the feel of walking onto a plane, and it feels like that as you walk up the stairs to the front door. Once inside, the spacious and naturally sunlit rooms running off the central hall. Breakfasts would be a real delight as the morning sun streams into the kitchen/dining space and warms you for the start of the day. The sun follows you to the generous lounge and into the three roomy bedrooms as the day progresses. The main bedroom benefits from a spacious ensuite with a luxurious corner spa. This is the perfect home for a couple or young family with an easy care garden and a beautiful outdoor undercover decked area, set up for entertaining family and friends. This "2nd living area" comes complete with bistro blinds for all weather use, is covered and fenced for children and family pets and is accessible from the dining, lounge and laundry doors. The huge garage underneath, which is extra high and wide, allows ample room for a workshop in addition to your larger vehicle. A double adjoining carport and extra off street parking...it doesn't get much better than this! Close to Mona, Northgate Shopping Plaza and local schools, shops and services, you won't find a quieter, yet more convenient location. Less than 15 minutes drive to the City, this is your chance to own a modern, unique, spacious...and affordable home.
