\$2,250,000

Land size 622sqm. For those seeking a bayside, family sized, renovated and extended period home your time has come! With the beach and reserves at the end of your street you can count the days down to an idyllic summer. The well-planned ground floor and double storey extension to the original California Bungalow has been executed with an emphasis on space and enjoyment of both indoors and out. All four bedrooms are oversized with the highlight being the truly enormous upstairs main bedroom suite with walk through robe, ensuite bathroom and private balcony. Essential for today's needs, there is also a large home office. You'll have all the privacy and space you need to focus on your work or study tasks. The kitchen has been set up with the entertainer in mind and sits at the heart of the expansive open plan living and dining zone that connects seamlessly with the outdoor entertaining area. Delightful, established gardens surround the expansive outdoor deck with retractable awning and heated spa. Enthusiasts will relish the paved rear lane which provides right of way access for secure parking of four vehicles (two undercover), plus room for the boat or caravan! Storage features, both inside and out, are thoughtful and abundant. Year-round comfort is ensured via ducted heating and split system cooling. The wait is over. Summer is on the way and the beach beckons.
