This centrally located residence is only a short walk to the main street and contains four bedrooms, with two of them being larger in size. The lounge room adjoins onto the dining area which flows through to the modernized kitchen with a large walk-in pantry. The bathroom hosts a shower over the bath, vanity, and toilet. Externally you will find a single lock up garage that you can enter off the street, a garden shed on concrete slab, and second out door toilet. This home on a small easily maintained and well fenced block would be great for investors, first home owners, or those looking to down size.
