With an enviable elevated position and offering stunning panoramic views to Lake Wallace, this outstanding recently renovated property is a rare find. The floor plan features 3 bedrooms, a near new modern bathroom, an open plan living and dining room with gas heater, and a near new modern kitchen with breakfast bar. The rear deck provides an excellent outdoor living space, awesome views and there is a handy under house workshop and storage area. A new concrete driveway from the street provides access to a double colourbond garage. A thoughtful and thorough renovation inside and out in this quality home with a tightly held, popular address.
