\$749,000

This large waterfront home, sitting on 989m², in a prestige street is exceptional value at this price! Outstanding views, a good layout and a solid home make this a great buy. It has tons of potential or is a comfortable family home as is. Surprisingly large with a real parents retreat, another large bedroom, another good size one on the other side of the house (study? work from home?) and tons of built in storage, two car garage, two car carport, extra deck and storage under with steps through the trees to the water. Please call me now for an inspection of your new waterfront home! Kerrie 0401 575 274. Some rooms have been virtually staged.
