The property is located in the rural town of Forest. The 3 bedroom home is very neat with a wood pellet heater and wall mounted heat pump for heating. The open plan living/dining and kitchen area opens to a great undercover timber deck for enjoying the outdoor area. Water is provided to the home with a tank and also water bore for the garden and lawns of the property. The home is a short walk to the local shop and PO. Forest has a great Primary School up to grade 6 for families. The garage /workshop has inbuilt benches. There is enough room for a great vegetable garden.
