Auction

First time ever released to the market and boasting an enviable acreage position to Glenorie Village, this huge 5 acre land holding features a 1960 built single level brick residence and open horse paddocks and creek access – perfect for families to enjoy a rural lifestyle. The land oozes appeal for those wanting to renovate the original single level residence, rebuild or invest for the future. This pristine property blends the perfect combination of arable, level land with the natural flora and fauna. The body of the property is partially fenced paddocks with easy access to Glenorie Creek at the rear. The result being untapped potential just a stone's throw from Sydney and only 25mins drive to Castle Hill Metro or Hornsby train station, with access to the city never being easier. This opportunity to either land bank, renovate or rebuild is now available and provides a great opportunity for the savvy investor to own a significant portion of land in the premier Hills District. The property is being offered for sale as a genuine public auction and we have been instructed to sell on the day.
