\$6,600,000

Inspections by appointment only - Contact Ben Horwood - Watch the property film for further details
Flawlessly designed to feel as though it belongs in its lush botanical surrounds and maximising a desirable North to rear aspect overlooking Concord Golf Club ... no expense was spared to create this architectural masterpiece showcasing elegance, sophistication and an intentionally understated sense of class and refinement which sets this showstopping residence apart from modern mainstream homes. Exclusively designed by its owners with 35 years of architectural design and building experience to respect its surrounding environment, it brilliantly contrasts the warmth and patina of recycled brick with the sleek matt finish of fully recyclable standing seam Aluminium cladding and raw off form concrete. Every last detail in this home was individually selected, carefully considered and implemented with natural or sustainable materials to create elements of function, style and refinement which will undoubtedly see it defy passing trends and withstand the enduring test of time. The effortless flow and practical layout of this home makes it the perfect environment for family living with sunlit open living spaces connecting seamlessly with a flush flooring level to the outdoors. A remote opening and closing roof over the al fresco terrace, an in ground fresh water pool, cabana and vine covered pergola combine to complete a tranquil environment for entertaining in absolute privacy without rear neighbours overlooking your secluded leafy oasis. Set amongst beautifully matured Richard Unsworth designed landscapes with a strong sense of belonging in Concord's most prestigious position, it is superbly convenient with CBD trains and Majors Bay Road's restaurants just a short stroll away and elite Inner West schools like Trinity Grammar, Meriden, PLC, MLC, Santa Sabina, Newington and St. Patricks College all within very close proximity. Properties of this stature are the result of an unwavering intention to achieve perfection without compromise or consent to a budget and they are rarely offered to the market. Its distinct sense of luxury and opulent designer aesthetic combine with a highly desirable, Blue Ribbon address resulting in a truly spectacular world class home that will be treasured for generations to come.
