Opportunity awaits for this huge corner block of approximately 2,023m². The property is already divided into three parts by a colourbond fence in excellent condition. In the middle section of the property is a 6m x 8m of timber clad shed with a tin roof that was once the home of a noble fraternity. This land is flat & useable, and would suit a medium density subdivision and investment property build (STCA) or to clean out and establish the family home on one of the largest home sites in the Nebo township. The property is very close to all amenities and walking distance to Schools, the Nebo Hotel and swimming pool. Nebo is approximately an hour's drive to both the major regional centre of Mackay & the booming Bowen Basin mines employing thousand's of workers.
