Bathrooms: 2

Parkings: 2

Area: 1200 m2

Type: House

Tanya Harvey

\$360,000

Step into this well refurbished home on a large block. Inside, you'll find a stylishly renovated kitchen, offering butlers pantry, island bench, dishwasher, and electric cooking, and overlooking the dining and living areas. The master bedroom has timber floors and a large built-in-robe. The family bathroom offers a separate shower and bath, while the laundry includes another toilet and shower. Ducted heating and cooling mean you'll be comfortable all year round, though on those summer nights you will likely want to spend enjoying a cool drink in the back alfresco area. The property sits on a sprawling 1201m² block, offering ample space for outdoor activities. Rear lane access adds to the property's convenience and accessibility, while a garage and carport are there for additional car storage.
