Located on the crest of Darlinghurst in a quiet cul de sac is 'Ballina', two distinctive Art Deco buildings that have retained many of their original features including a notable arched brick entry and stained glass crested windows. The building has one of the best common roofs in the area with 360 degree views to the city skyline and harbour bridge. In the northern building, the larger of the two Ballina buildings, on the elevated third level, Apartment 53 features high ceilings, timber floorboards, sash windows, cleverly concealed storage within the custom kitchen, newly renovated bathroom with a shower over the full bath. The apartment has expansive views through to the East overlooking the terrace house rooftops and gothic spires of the neighbouring buildings below. A perfect home, only walking distance to St Vincent's Hospital, the CBD, Oxford St, transport links, the best cafes and restaurants in the area.
